

## **PT. SYNERGY ENGINEERING**

### **QHSE POLICY**

**PT. Synergy Engineering is committed to continually improve our QHSE performance and QHSE management system.**

**We shall strive to:**

- 1. Strictly adhere to the requirements of our quality, health, safety and environmental management system and fulfill all relevant customer requirements, government laws, regulations, and standards, to meet corporate and project objectives**
- 2. Create and sustain a workplace that is free of work related injuries, illnesses and incidents for all our employees, customers and partners in the course of achieving our goals**
- 3. Maintain the quality of our work by monitoring and controlling our performance**
- 4. Protection of the environment, including pollution prevention and reducing or eliminating adverse impacts to the environment by conservation, substitution and recycling**
- 5. Continually improve our processes, services, quality, health, safety and environmental management system and performance**

**PT. Synergy Engineering's management and all of our staff are committed and responsible for the execution of this policy.**

**This policy is available to all of our personnel and interested parties.**
